

# Exploring and Preparing Your Data with **BigQuery** **SQL & Studio**

**Unlocking High-ROAS Google Ads Growth for Luxottica**

**Google Cloud & Luxottica Executive Workshop**

# Agenda

1. **CMO Emergency Briefing & Data Exploration**
2. **AI SQL Generation with Gemini & BigQuery Studio**
3. **High-Margin Discovery (AOV & Revenue Analysis)**
4. **Cross-Channel Campaign Performance & Google ROAS**
5. **Data Wrangling & Customer Match Activation**

# 01 | CMO Emergency Briefing & Data Exploration

## Marketing Performance vs. Budget Growth

### ● **Ad Budget Growth: +35% (€4.8M Total Spend)**

Heavy budget allocation across unverified 3rd-party social channels (TikTok, Criteo).

### ● **E-Commerce Revenue: FLAT (+2% to €21.5M)**

Flat conversion rates across flagship online storefronts. The CMO needs a data-backed plan!

# 02 | AI SQL Generation with Gemini & BigQuery Studio

# BigQuery Studio Data Canvas & Gemini AI

## Natural Language Prompt:

*"Calculate total orders, total revenue in EUR, and average order value (AOV) grouped by brand in luxottica\_marketing\_analytics."*

```
SELECT
  brand,
  COUNT(order_id) AS total_orders,
  ROUND(SUM(revenue_eur), 2) AS total_revenue_eur,
  ROUND(AVG(revenue_eur), 2) AS average_order_value_eur
FROM `luxottica_marketing_analytics.lux_online_orders`
GROUP BY brand
ORDER BY total_revenue_eur DESC;
```

## 03 | High-Margin Discovery & Brand Performance

## Brand Revenue & Average Order Value (AOV)

- **Oliver Peoples: €396.00 AOV (Luxury Leader)**

High-margin luxury brand driving e-commerce profitability.

- **Ray-Ban Meta Smart Glasses: > €320.00 AOV**

Google Search demand surging, but daily campaign budgets run out too early in the day!

# 04 | Cross-Channel Campaign Performance & Google ROAS

# Comparing Advertising ROAS Across Channels

| Platform                 | Daily Spend | Conversions | ROAS        | Esito           |
|--------------------------|-------------|-------------|-------------|-----------------|
| TikTok & Criteo          | €2,200/day  | 8           | 0.7x ROAS   | ✗ Wasted Spend  |
| Google Search & Shopping | €450/day    | 120         | 6.8x - 8.2x | 🚀 High ROI Hero |
| YouTube & PMax           | €600/day    | 85          | 6.5x ROAS   | ★ Scale         |

💡 **Key Finding:** Reallocating 60% budget from 0.7x ROAS social ads to Google Ads captures 100% of Ray-Ban Meta search demand!

# 05 | Data Wrangling & Customer Match Activation

## Preparing Leads for Google Ads Customer Match

1. **Raw Lead Ingestion:** 1,000 uncleaned records with malformed emails and mixed currency formats.
2. **Visual Data Prep:** Automated no-code cleaning rules in BigQuery Studio.
3. **Google Customer Match:** 350+ VIP leads activated for retargeting on YouTube & Search!

# The Q4 Google Growth Strategy for CMO

1. **Reallocate 60% Budget:** Shift funds from 0.7x ROAS social channels to Google Search & Performance Max.
2. **Capture 100% Search Share:** Eliminate budget caps on Ray-Ban Meta Smart Glasses search queries.
3. **Activate Customer Match:** Target 350+ VIP leads on YouTube Ads.
4. **Looker Studio Dashboards:** Real-time ROAS monitoring for C-Level executives.

# Congratulations to the Winning Brand Detective Team!
